CAPTIVE BOLT STUNNER

Captive bolt stunner in different designs and sizes

- High penetrating power even for high slaughter throughput
- Effective trigger safety system
- Automatic cartridge ejector
- Quick-release bayonet lock
- Low wear thanks to robust design
- Low cleaning and maintenance costs
- Easy handling
- Economical and moisture-resistant high-performance cartridges (Calibre 6.8/15)
- Bears a test mark from the PTB in Braunschweig

Schermer TYPE KS

Captive bolt stunner for sheep, pigs and cattle
(up to 650 kg)

- Automatic bolt retraction system prevents the bolt from becoming stuck in the animal‘s skull
- Bolt does not get stuck in the animal’s skull
- Easy handling

Schermer TYPE KR

Captive bolt stunner for pigs, cattle, sheep, and horses
(up to 1000 kg)

- Bolt damping by means of rubber buffers
- High penetrating power thanks to initially exposed bolt
- Low wear thanks to robust design

Schermer TYPE KK

Captive bolt stunner for cattle and sheep (up to 650 kg)

- Shortened design
- Manual bolt reset
- Version with integrated rubber buffers
- Easy handling under more challenging operating conditions (e.g. emergency slaughtering, truck stunning)
- Design is otherwise the same as type KR

Schermer TYPE KL

Captive bolt stunner, particularly suitable for large animals (over 1000 kg

- Elongated design with elongated bolt
- Manual bolt reset
- Version with integrated rubber buffers
- Effective stunning even for breeding bulls and water buffaloes
- Design is otherwise the same as type KR
